Built to last. Built for strength.

www.universalgaragedoor.com

Universal Series garage doors are built for strength and longevity.

The Universal Series offers 24 or 25 gauge steel without sacrificing beauty.

The exterior of the door is embossed with a woodgrain texture finish accented by the elegant raised panel design.

These are cost effective garage doors produced with exceptional quality, using only the finest materials.

MODEL 225

The cost effective Model 225 offers exceptional value. The exterior of the door is embossed with a woodgrain texture finish accented by an elegant raised panel design. The door is composed of 25 gauge hot dipped galvanized steel with baked-on polyester paint and reinforced for strength and safety.

- ▲ 25 Gauge woodgrain textured steel
- ▲ Unique sculpted panel design
- ▲ Short and Long panel available
- ▲ 2" section thickness
- ▲ Tongue and groove weather joint
- ▲ All 21" sections include shadow groove
- ▲ Heavy gauge galvanized stiles
- ▲ Doors pre-painted white & almond (almond only in 21" section height)
- ▲ 18" and 21" section heights
- ▲ H1 or H2 Hardware pack
- ▲ Optional CFC free Polystyrene insulation with a rigid vinyl backskin
- ▲ Limited 10 year warranty

MODEL 224

For strength and longevity, the Model 224 utilizes heavy 24-gauge steel without sacrificing beauty. The exterior of the door is embossed with a woodgrain texture finish accented by a raised panel design. The door is composed of 24 gauge hot dipped galvanized steel with baked-on polyester paint and reinforced for strength and safety.

- ▲ 24 Gauge woodgrain textured steel
- ▲ Unique sculpted panel design
- ▲ Short and Long panel available
- ▲ 2" Section thickness
- ▲ Tongue and groove weather joint
- ▲ Heavy gauge stiles - pre-painted white (white/almond door) or galvanized (brown/sandstone door)
- ▲ Doors pre-painted white, almond, sandstone* and brown*
- ▲ 18" and 21" section heights
- ▲ H2 or H3 Hardware pack
- ▲ Optional CFC free Polystyrene insulation with a rigid vinyl backskin
- ▲ Lifetime limited warranty

MODEL 625

The Model 625 is a thermally efficient steel front and steel backed "sandwich style" door. Formed with a unique sculpted raised panel the Model 625 is embossed with a natural wood grain texture. The core is CFC free Polystyrene insulation with a steel back skin for thermal efficiency. The Model 625 door will add great value and beauty to any home.

- ▲ 25 Gauge woodgrain textured steel
- ▲ Unique sculpted panel design
- ▲ Short and Long panel design
- ▲ 2" section thickness
- ▲ Tongue and groove weather joint
- ▲ Full length hinge strip
- ▲ Doors pre-painted white and almond
- ▲ 18" and 21" section heights
- ▲ H2 or H3 Hardware pack
- ▲ CFC free Polystyrene insulation with a 26 gauge steel back skin
- ▲ Lifetime limited warranty

Introducing the Universal Series garage doors from 1st United Door Technologies. The workmanship and quality materials ensures you have a door that is built for strength and longevity. Using 24 or 25 gauge steel the doors are embossed with a wood grain texture finish accented by the elegant raised panes design. These garage doors set the standard when it comes to beauty and durability.

Available Panels

Long Panel

Short Panel

Reinforced Aluminum Bottom Extrusion

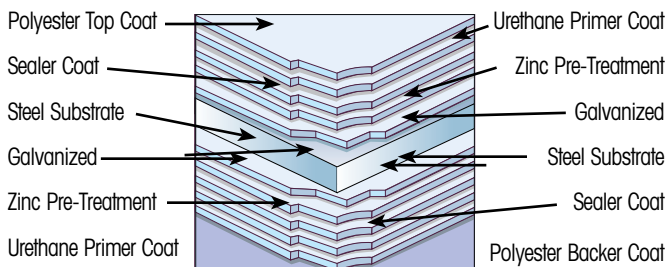

Heavy duty grooved "U" type weather seal is set into an aluminum reinforced "L" angle, and bonded to the bottom section.

I-Beam Center Stiles

I-beam center stiles are engineered to reinforce the construction of the section and designed to eliminate the use of plastic reinforcement angles when the section is post insulated. Pre-painted stiles are used for Models 224 (White/Almond) and all Model 625. Galvanized stiles are used for Model 224 (Brown/Sandstone) and all Model 225.

Ten Coat Rust Protection
